## LASER & ADVANCED TECHNOLOGY TREATMENTS

*Cutting-edge energy-based treatments designed to lift, tighten, and restore skin health through radio frequency, laser, and light-based innovations. Each service is performed with precision to promote cellular rejuvenation and long-term results*

**Carbon Laser Facial** \$200  
A detoxifying laser treatment that uses a medical-grade carbon solution and Q-switched laser to deeply cleanse pores, reduce oil, refine texture, and brighten the skin. Stimulates collagen renewal while minimizing acne, pigmentation, and dullness.

**Photofacial (IPL)** \$200 & Up  
An Intense Pulsed Light (IPL) treatment that targets sun damage, pigmentation redness, and vascular lesions. Delivers broad-spectrum light energy to rejuvenate the skin at a cellular level, improving tone, texture, and overall luminosity.

**Venus Freeze™ Facial** \$250 & Up  
Non-invasive facial rejuvenation using multi-polar radio frequency and pulsed magnetic fields to stimulate collagen and elastin. Firms, lifts, and smooths the skin while enhancing circulation for a refreshed, youthful glow.

**Venus Freeze™ Body** \$250 per area & Up  
Uses advanced multi-polar RF and magnetic field technology to tighten lax skin, reduce cellulite, and improve body contours. Safely stimulates collagen and improves tone for smoother, firmer body areas.

**Body Contouring.** \$250 per area & Up  
Combines targeted radio frequency and pulsed electromagnetic technology to reduce stubborn fat pockets, tighten skin, and reshape body contours. Encourages lymphatic drainage and boosts circulation for visible, lasting results.

## LASER & ADVANCED TECHNOLOGY TREATMENTS

**Morpheus8 Face** \$1000  
Fractional radio frequency microneedling that penetrates deep into the dermis to remodel collagen and tissue structure. Improves skin laxity, texture, fine lines, and acne scarring for smoother, firmer, rejuvenated skin.

**Morpheus8 Body** \$1500  
Delivers deep fractional RF energy to tighten skin, reduce stretch marks, and improve body contours. Ideal for areas with moderate laxity or uneven texture such as abdomen, arms, or thighs.

**Tone by InMode** \$300 per area  
Uses electrical muscle stimulation (EMS) to tone and strengthen underlying muscle groups. Improves definition and firmness in treated areas for a sculpted, athletic.

**Forma V** \$1000  
A non-surgical vaginal rejuvenation treatment utilizing radio frequency energy to tighten internal and external tissues, increase collagen production, and enhance circulation for improved tone, comfort, and confidence.

**V-Tone** \$250  
An intra-vaginal muscle stimulation treatment that strengthens pelvic floor muscles to improve tone and support. Assists in urinary control, core stability, and feminine wellness with a comfortable, non-invasive approach

**Laser Hair Removal** Starting at \$30  
A precision light-based treatment that targets hair follicles at the root to safely and effectively reduce unwanted hair growth. Suitable for all skin types with minimal discomfort and no downtime. Achieves long-term hair reduction and smoother skin with a series of treatments.

## LASER & ADVANCED TECHNOLOGY TREATMENTS

**Pico Laser Vein Reduction (Face)** \$50 and Up  
Targets and reduces small facial veins, broken capillaries and redness using ultra-short picosecond pulses. The energy gently collapses unwanted vessels without damaging surrounding skin, revealing a clearer, more even complexion with minimal downtime.

**Pico Laser Tattoo Removal** \$50 Small  
\$80 Medium  
Breaks down unwanted tattoo pigment with ultra-fast picosecond pulses for efficient fading. Safely treats most ink colors with minimal downtime and precise skin targeting.
